AD Lite

Specifications

Streamax Technology CO.,Ltd.

Preface

The Specifications describe the product components and parameter meaning of AD Lite, and the contents involved like text, figures, and graphics belong to Shenzhen Streamax Technology Co., Ltd. No part of the Specifications may be extracted, reproduced, translated, or modified in any form or by any means without the prior written consent of Shenzhen Streamax Technology Co., Ltd. Unless otherwise specified, the Specifications are provided without representations or warranties of any kind.

About the Specifications:

The Specifications are intended to provide guidance for authorized users and technical support personnel of the product.

The product pictures and screen contents provided herein are for illustration only. The physical product (including but not limited to its appearance, color, and size) may differ from the displayed contents (including but not limited to the background, UIs, and pictures). Please refer to the physical product.

The figures contained herein are theoretical values obtained from the internal laboratory of Streamax Technology in a specific test environment (refer to the specific instructions). These figures may vary slightly in actual use due to the individual product differences, software version, service condition, and environmental factors.

With the real-time changes in product batches and production-supply factors, in order to provide product information, features, specifications, and parameters as accurate as possible, Streamax may adjust and modify the text, pictures, and other contents in the Specifications from time to time to match with the actual performance, specification, indexes, components, and other information of the product. Such changes and necessary adjustments may be made without special notice.

Trademark Statement:

Streamax is the registered trademark of Streamax Technology. All other trademarks mentioned in this Specifications are the property of their respective holders.

Responsibility Statement:

To the maximum extent permitted by applicable law, the products described in this Specifications (including their hardware, software, firmware, etc.) are provided "AS Available" with possible flaws, errors, or faults. Streamax makes no warranties, express or implied, including but not limited to merchantability, quality satisfaction, fitness for particular purposes, or no

infringement on the rights of third parties. The use of the Specifications or products of Streamax is at your own risk. In no event will Streamax be liable to you for any special, consequential, incidental, or indirect damages, including but not limited to damages for loss of business profits, or loss of data or documentation, in connection with such use.

You acknowledge that the nature of the Internet provides for inherent security risks, and Streamax shall not take any responsibilities for abnormal operation, data leakage, or other damages resulting from cyber-attack, hacker attack, virus infection, or other Internet security risks; however, Streamax will provide timely technical support if required.

You agree to use this product in compliance with all applicable laws. Streamax shall not take any responsibility for the product being used to infringe on the rights of a third party or for other improper purposes.

In the event of any conflicts between the Specifications and the applicable laws, the latter prevails.

Read the Specifications before using the product, to ensure that you will use the product correctly and all necessary functions will work properly.

Warning: conditions that may involve the safety of the device user or injure the device user

Important: conditions that may damage data integrity or firmware or hardware of the device

Note: additional descriptions, explanations of terms, etc.

Contents

Abbreviations Explanation

Abbr.	Full Name
ADAS	Advanced Driving Assistance System
DSC	Driving Safety Cockpit
DMS	Driver Monitoring System
VBR	Variable Bit Rate
CBR	Constants Bit Rate
LDW	Lane Departure Warning
HMW	Headway Monitoring Warning
FCW	Forward Collision Warning

1. Product Introduction

AD Lite is an AI dashcam that helps drivers to reduce traffic accidents and facilitates fleets to improve management efficiency. Based on AI technology, it can actively detect risky driving events and unsafe driving behaviors, supporting sending local real-time reminders to the driver to avoid risks and uploading events to the fleet management platform for driver training. It transmits real-time and accurate vehicle position information and operation data to the fleet management platform. It provides high-quality remote intercom and video live view playback to make the fleet management easier and more efficient.

2. Functions and Features

- Ultra-wide 96° DFOV road facing lens, supporting up to 1080P HD video recording
- Ultra-wide 170° DFOV driver facing lens, supporting up to 1080P HD video recording
- Support up to 3-channel video recording
- H.264/H.265 encoding
- 2 x 256GB dual-Micro SD card storage, supporting the simultaneous storage of main streams and sub streams
- Built-in Wi-Fi, 4G communication module, and inertial navigation positioning module
- AES256 encryption for video/audio data, encryption protocol TLS1.3 for data transmission
- 4-channel IO input, 1-channel CAN and 1-channel RS232
- Compact design, not affecting the driver's sight regardless of vehicle size
- OBD power supply, easy installation
- Built-in ADAS function, supporting lane departure warning (LDW), forward collision warning (FCW), and headway monitoring warning (HMW)
- Built-in DSC function, supporting the detection of unsafe driving behaviors
- Support echo & noise canceling algorithm to improve the quality of two-way audio communication

- Sleep mode, remote wakeup
- Built-in 6-axis gravity sensor, supporting rapid acceleration, rapid deceleration, harsh cornering, and accident detection

2.1 AI Function

AD Lite uses machine vision based on video analysis technology to automatically identify road risks and drivers' unsafe driving behaviors. Any detected event will trigger audible and visual reminders to remind drivers in real time, and the event videos can also be uploaded to the cloud.

Warning: AI function must be calibrated and configured in strict accordance with the installation and operation instructions, otherwise, the AI function cannot work properly.

Unfastened seat belt

Fatigue driving

3. Specifications

Product model: AD Lite	
System	Embedded Linux
Language	Options: Chinese, English, Spanish (Latin American), Portuguese (Latin American), French, Russian and Japanese. Default: English. * The language includes interface language and voice reminder. TTS supports Chinese and English only.
Video/Audio	
Video/Audio Recording	3-channel video (default: 2 channels; extension: 1 channel) + 1-channel audio

Max. Capability (with 2-channel AI)	1080P@25fps (ADAS)+1080P@25fps (DSC)+ 800P@20fps (DMS) Recommended configuration (1080P@20fps+1080P@15fps +800P@20fps (IPC))
Image Setup	Adjustable brightness, chroma, contrast, color saturation, and sharpness
Video Coding	Options: H.264 and H.265. Default: H.265
Audio Compression Standard	Options: ADPCM, G.711, and G.726. Default: ADPCM
CBR/VBR	Options: VBR and CBR. Default: VBR
Audio	Built-in MIC
Loudspeaker	Built-in speaker, power: 3W, with adjustable volume, not less than 70 dB at 1m distance
Parameters of road facing lens	
Sensor Type	1/2.8" 2-megapixel CMOS sensor
Shutter Speed	1/30s~1/100000s
Lens	Focal length: 4 mm HFOV: 89°; VFOV: 46°; DFOV: 105°; Deviation: ±5°
Minimum Illuminance	Color: 0.05 Lux/F1.2
Lens Mount	Built-in lens
Wide Dynamic Range (WDR)	Digital WDR
Backlight Compensation	Supported
Signal-to-Noise Ratio (S/N)	≥48dB
Parameters of driver facing lens	
Sensor Type	1/2.9" 2-megapixel CMOS sensor

Shutter Speed	1/30s~1/100000s
Lens	Focal length: 2.2 mm HFOV: 151°; VFOV: 84°; DFOV: 170°; Deviation: ±5°
Lens Mount	Built-in lens
Wide Dynamic Range (WDR)	Digital WDR
Backlight Compensation	Supported
Signal-to-Noise Ratio (S/N)	≥45db
Infrared Lamp	Supported. The built-in environmental light sensor turns on/off the lamp automatically * Threshold: 4 lux from daytime to night, and 8 lux from night to daytime. There may be some deviations for different devices. Please refer to the actual measurements.
LED Indicator Status	
Power Status Lights	Off/Green Off: The device is not powered on Steady green: The device is powered normally
Alarm Indicator	Off/Red Off: The device does not generate any alarm Red flashes three times: The device generates an alarm
GPS Signal Indicator	Off/Red Off: The device positioning runs normally Steady red: The device positioning runs abnormally (not positioned, or module not connected or damaged) Red flash (once per second): The device positioning is poor

Network Status Indicator	Off/Red Off: The device is connected to the server normally Steady red: The device is connected to the server abnormally Red flash (once per second): The device is in airplane mode * Airplane mode: Turning off the network signal of the dashcam to ensure safety when the vehicle enters the gas station.
Wi-Fi Status Indicator	Off/Red/Green Off: The device is in Disable or Client mode Steady green: The device is in AP mode Steady red: The device Wi-Fi runs abnormally
Recording Status Indicator	Off/Red Off: The built-in or extended camera runs normally Steady red: The built-in or extended camera stops (including privacy mode)/fails * When the video recording function is enabled (main stream and sub stream), the prompt will be given if no recording is detected. If the video recording function is disabled (main stream and sub stream), it will be regarded as normal recording status.
Storage	
Micro SD card	Micro SD card×2, (SDXC 32GB/64GB/128GB/256GB) Read/write rate: Class10 or above is recommended
Sensor	
Six-axis Sensor	Harsh acceleration, Harsh deceleration, Harsh cornering, and accident detection
Environmental Light Sensor	Supported, used as the cockpit camera, subject to day/night switching
Port	
RS232	1-channel
I/O Port	4-channel input

CAN	1-channel (standard J1939 protocol)  Warning: As some data fields may be customized by automobile manufacturers, the final measured data shall prevail. In the event that any required data is not supported, the integrated development is acceptable based on a specific protocol.
USB	1 × mini USB port
Button	1 To switch Wi-Fi to AP mode, press the button twice within 2s. * For details of other buttons, refer to the user manual of the product.
Network	
Wi-Fi	Support 2.4G (IEEE Std.802.11a/IEEE Std.802.11b/IEEE Std.802.11g /IEEE Std.802.11n)
4G	Plug-in SIM card (Nano SIM card) ● For North America: LTE FDD: B2/B4/B5/B12/B13/B14/B66/B71 WCDMA: B2/B4/B5 ● For Europe and Asia: LTE FDD: B1/B3/B7/B8/B20/B28A WCDMA: B1/B8 GSM: B3/B8 ● For Latin America: LTE FDD: B1/B2/B3/B4/B5/B7/B8/B28 LTE TDD: B40 WCDMA: B1/B2/B5/B8 GSM: B2/B3/B5/B8

	Warning: The industrial SIM card (MP2) is required, and the ordinary SIM card (MP1) is prohibited. We are not responsible for any problem caused by the use of any ordinary SIM card.
Positioning	
GNSS	Supported GPS L1 1575.42MHz GALILEO E1B/C1 GLONASS L1OF 1602MHz SBAS: WAAS, EGNOS, MSAS, GAGAN
Power Related	
Power supply	12V and 24V vehicles (self-adaptive)
Power consumption	● In standby mode: 13.5V@5.66mA, 27V@3.4mA ● In sleep mode(4G and MCU powered): 13.5V@71~125mA, 27V@30~56mA ● Typical power consumption (with dual SD cards installed and SIM card for dialing): about 6.41W ● Full-load power consumption (with dual SD cards installed, SIM card for dialing, Wi-Fi turned on, IPC, and infrared lamp turned on): about 10.06W * The above data are test data obtained in a specific environment in the laboratory, and may vary with the individual product differences, service environment, and testing methods.
Environment	
Operating Temperature	-40°C ~ +70°C (-40°F ~ +158°F)
Storage Temperature	-40°C ~ +85°C (-40°F ~ +185°F)

Operating Humidity	15~95% non-condensing
Storage Humidity	15~95% non-condensing
IP Rating	IP30 * The Dashcam is non-waterproof
Dimensions and Weight	
Dimensions L×W×H	Dashcam: 113.0 mm×67.8 mm×88.2 mm (excluding bracket); Deviation: ±2 mm Package: 176 mm×150 mm×114 mm; Deviation: ±3 mm
Weight	Net weight (device only): 295g Gross weight (including accessories and package): 745g Deviation: ±10g
* The actual dimensions and weight may vary with the individual product differences, manufacturing processes, and testing methods.	
Package Contents	
AD Lite ×1, power supply box ×1, standard power cable ×1, Allen key ×1, mounting bracket ×1, bracket bolt ×1, crowbar ×1, desiccant ×1, and alcohol cotton×1	
* The configuration may vary in different regions.

1		4 (RXN)	Green
6		5 (RXP)	Yellow
10		3 (VCC)	Red
3		6 (GND)	Black
shell		shell	(Ground)

6. Notice

1) The product needs to be installed by professionals, otherwise, there may be a risk of electric shock, damage to vehicle lines, impact on AI experience and device falling-off.
2) The surface temperature may exceed 60°C when the product is in use under direct sunlight.

Please do not touch the surface exposed to direct sunlight to avoid burns.
